

Adapter Hub 7-in-1 Orico USB 3.0 + USB 3.0 cable 1m

Adapter Hub 7-in-1 Orico USB 3.0 + USB 3.0 cable 1m

Ref: 6954301193951

Orico 7-in-1 USB 3.0 Hub

Gain up to 7 additional USB 3.0 ports and make your life easier. The practical hub by Orico enables data transfer speeds of up to 5Gbps and is compatible with a wide variety of devices. The reliable operation of the product is ensured by a 2-core VIA chip and a 12V power source. The detachable USB cable provides more freedom to use the product, and built-in LED indicators provide status information.

Wide compatibility - lots of possibilities

Your computer or laptop doesn't have enough USB ports? The functional Orico hub will be the perfect solution for you! The product is distinguished by a wide compatibility - you can successfully connect to it a keyboard, a phone, a mouse, a portable disk, a camera, a webcam or even a printer. Increase your possibilities and enjoy a comfortable, efficient work!

Transmit all the files you need in no time

Is it annoying to wait too long to copy your files? With the Orico Hub similar problems will become a distant memory! Each of the 7 USB 3.0 ports of the device allows you to transfer your photos, movies or documents with the speed up to 5Gbps. This is up to 10 times faster than the previous generation USB 2.0 interface! Now you can enjoy data read speeds of up to 80-130MB/s and write speeds of up to 100MB/s.

Advanced VIA chip

What makes the hub impress with reliable performance? The high-end 2-core VIA chip! It is thanks to it that each USB 3.0 port can provide transmission speed up to 5Gbps. Many years of experience of Orico connected with the work on PCB chips resulted in creating a hub, which will meet the expectations of even the most demanding users.

Power adapter for reliable performance

Using hubs that do not have a built-in power source can even result in hard drive damage. In order to effectively prevent such risks, the Orico product has been equipped with a 12V power supply. Thanks to this, the connected devices can always work safely and stably - even at full load.

Detachable cable - freedom of use

Enjoy the freedom and comfort of use. The hub is equipped with a 1m detachable USB cable, with which you can conveniently connect it to your computer. Easy to use, store and transport, yet extremely durable - will prove itself in many applications and certainly will not let you down.

Practical LED indicators

Each USB port has an independent LED indicator to give you information about its status. The soft blue light won't be glaring your eyes or disturbing your work or rest. When it is on, it indicates that a specific device is properly connected and working properly.

Brand

Orico

Model

H7928-U3-V1-EU-BK-BP

Number of USB ports

7

Interface

USB 3.0
