Smart Floor Lamp Meross MSL610 (HomeKit)

Ref: 6973696562234

Smart Floor Lamp Meross MSL610 (HomeKit)

Meross MSL610 smart floor lamp (HomeKit)
The Meross MSL610 smart lamp is not only a great lighting solution, but also a smart solution to make your daily life even more convenient. Its brightness level is 650 lm, and you can adjust the colour temperature to suit almost any situation. Thanks to its clever design and the included accessories, you can use it in up to 3 ways. It works with popular voice assistants and the Meross app allows you to control it remotely.

Optimally lit room
With a brightness of 650 lumens, it provides ideal illumination in any room. The infinitely adjustable brightness level and colour temperature, ranging from 2700K to 6500K, allows you to adapt the light to different scenarios - from relaxing with warm light to white, strong lighting for reading or working. What's more, it emits eye-friendly light that prevents eye fatigue and dryness.

Control it from a distance
Now you can freely control your lighting wherever you are. The Meross app will give you full control over your smart lamp. With it, you can adjust the brightness or colour temperature to create the perfect conditions for working, reading, relaxing or entertaining. The lamp is also compatible with smart voice assistants, including Siri, Amazon Alexa or Google Assistant, so a simple voice command is all it takes to change the lighting settings.

Multifunctional design
You can use the Meross smart lamp in up to 3 ways - all thanks to the included accessories. You can use it as an elegant floor lamp, perfect for illuminating an entire room. Need light while you work or study? Turn it into a table lamp in just a few moments. Or perhaps you want to illuminate a specific spot, for example while reading a book in bed? Simply mount it in the desired location as a clip-on lamp.

Lighting tailored to your lifestyle
The Meross MSL610 is intelligent lighting that adapts to your needs. Thanks to the timer function, you can plan your lighting schedule, adapting it to your day. Do you want the lamp to switch on at a specific time in the morning to wake you up with soft light? No problem! What's more, the lamp remembers your last settings, so you don't have to configure your lighting every time.
