

Smart Garage Door Opener Meross MSG200 (HomeKit)

Ref: 6973696560292

Smart Garage Door Opener Meross MSG200 (HomeKit)

Smart Garage Door Opener Meross MSG200 (HomeKit)

Gain the ability to remotely open and close your garage door with the Meross MSG200 smart switch! This product is compatible with Apple HomeKit, Amazon Alexa, Google Home, and Samsung SmartThings, allowing you to integrate it into your everyday ecosystem. The device allows you to control up to 3 garage doors simultaneously (with the purchase of additional sensors) and stands out with its wide compatibility.

Better Signal, Reliable Operation

The Meross MSG200 switch is equipped with an external antenna that better receives Wi-Fi signals and ensures its reliable operation - no need to worry about delays or interference. You also don't have to worry about the safety of your children or pets. When the garage door is closing, the switch emits an audible signal to allow everyone to move away safely. The product's reliable performance is also ensured by a built-in high-sensitivity sensor.

Wide Compatibility, Easy Installation

Don't worry about compatibility issues. The switch works perfectly with around 1600 models of garage doors from over 200 brands. It will work well with both older and newer models. Its installation is also hassle-free - just follow a few simple steps.

Convenient Control

Transform your regular garage door into a smart one. The Meross MSG200 switch allows you to remotely open and close it - just a few clicks on your phone! The device is compatible with Apple HomeKit, Google Assistant, Amazon Alexa, and Samsung SmartThings. You can manage it from the platform you use most frequently - no need to switch between apps. Not sure if you closed the garage door before leaving for work? Now you can do it with your smartphone!
