TWS QCY T13x headphones (black)

Turn on your favorite song and start your musical journey with the QCY T13x now! The EARPHONES feature 7.2mm dynamic drivers that deliver deep, powerful bass, clear treble and incredible richness of detail. With wind-noise-canceling microphones, you can rest assured that your conversations will be exceptionally clear even in difficult conditions. The ergonomic design provides maximum comfort, and the dedicated QCY app gives you full control over settings.

Let yourself be amazed by the sound quality

Discover new details in your favorite songs and let yourself be immersed in the depth of sound! The T13x features dynamic 7.2mm drivers that deliver sound of the highest quality. As a result, you can enjoy rich, bass-filled sound and crystal-clear treble that will transport you to the world of music in a whole new way.

Made for conversations

Now you can freely make phone calls even on the street in windy weather or while riding your bike! EARPHONES are equipped with quadruple microphones with advanced wind noise reduction, so your voice will always sound exceptionally clear and crisp, regardless of the conditions. The innovative technology effectively blocks all noise and interference, and even at wind speeds of up to 25 km/h.

Even more listening time

The QCY T13x won't let you down on long trips, intense workouts or a day full of phone calls! The EARPHONES allow you to make phone calls for 4 hours or listen to songs for up to 8 hours on a single charge. That's long enough to listen to 450 songs of music or watch 15 movies. A charging case is also included to extend their runtime to 30 hours, and they can play music for another hour after just 10 minutes of charging.

Faster connection to your device

Forget about annoying audio lag! EARPHONES use the latest version of Bluetooth 5.3, which guarantees stable, instant and reliable signal transmission at a distance of 10 meters. However, that's not all! The QCY T13x also offer a low latency of just 0.068 seconds, so that the sound is perfectly synchronized with the picture, which is extremely important when watching movies or playing games.

Just one touch

Operating the QCY T13x headphones is easier than you think! They feature intuitive touch panels that give you quick access to the most important functions. Use them to answer, end and reject calls, change songs, activate the voice assistant and more - all without having to reach for your smartphone!

Dreamlike comfort

The ergonomic design of the EARPHONES makes them fit perfectly in your ear, staying firmly in place, even during physical activity. One earphone weighs just 4g, so you won't feel their presence even when listening to music for long periods of time. The dedicated QCY app, which is available on both the Google Play store and the App Store, will help you personalize your EARPHONES. It will give you control over EQ settings or check the battery charge status.
