Maono A04E Microphone with Stand (Black)

The Maono A04E is a high-quality cardioid microphone with an adjustable stand that can be attached to the edge of a desk. It offers fantastic sound quality, allowing you to record podcasts, conduct streams, video conferences, and more. The ENC feature additionally reduces external noise to ensure clear and crisp audio for your audience. With the included cable with interchangeable plugs, the microphone can be connected to both a computer or laptop and a phone, expanding your possibilities and making device usage even more convenient. However, the benefits don't stop there.

Excellent Sound Quality

The Maono A04E offers excellent sound quality that will capture your audience's attention. Whether you're recording podcasts, streaming, or participating in video conferences, this microphone delivers exceptional clarity and sound quality.

Built-in Audio Interface and Sound Card

The A04E microphone features a built-in audio interface and sound card, allowing for effortless connection to a computer, laptop, or phone. This means you don't have to worry about complex configurations or additional devices – just plug in and start recording.

Reverb Effects Software

With the included reverb effects software, you have control over the sound of your recordings. You can add depth and dimension to your materials to further satisfy your audience. This tool allows you to create professional sound effects with ease.

Durable Construction

The Maono A04E is designed for durability. Made of metal, this microphone not only looks elegant but is also exceptionally robust, ensuring a long lifespan for the device.

Eco-Friendly Packaging

In an effort to be environmentally conscious, the packaging for the Maono A04E set is designed to minimize plastic use, reducing plastic waste by approximately 90%. The paper used for packaging is 100% recyclable, making it an eco-friendly choice.

Maono Link

Maono Link is intuitive and easy-to-use software provided by the Maono A04E set manufacturer to give users full control over the microphone. With Maono Link, you can adjust the microphone's gain, reduce ambient noise, and add reverb effects to tailor the sound to your individual preferences.
