

Metal Rabbit Cage Frame TELESIN for DJI ACTION 3/4

Metal Rabbit Cage Frame TELESIN for DJI ACTION 3/4

Ref: 6974944461132

TELESIN metal case for DJI ACTION 3-4 camera

Don't waste a moment capturing exciting moments from your life. The metal housing for DJI Action 3-4 cameras is a smart solution for creators who want fast action and flexibility when recording. It allows you to quickly mount it vertically or horizontally on a tripod and protects your device while allowing you to expand it with additional equipment.

Thoughtful design

The case offers the ability to connect, for example, lighting and a microphone at the same time using a cold shoe, making it a perfect accessory for vloggers. The Quick Release mechanism is a guarantee of hassle-free mounting and dismounting of the housing, and the carefully thought-out design also gives you the confidence to use it freely with all accessories - including filters - without any hindrances. Despite its lightweight design (55g), the case is an excellent safety device to protect your camera in case of a fall.
