

Magnetic Wireless Charger Vention FGABAG 15W 1m (Black)

Magnetic Wireless Charger Vention FGABAG 15W, 50cm (Black)

Ref: 6922794761612

Magnetic Wireless Charger Vention FGABAG 15W, 5cm (Black)

The Vention induction charger will allow you to charge your devices wirelessly quickly and conveniently. It provides up to 15W of power and supports standards such as PD, QC and AFC. It is equipped with high-quality magnets and guarantees safe use. The set also includes a practical charging cable with a length of 1m - no need to buy additional cables!

Fast charging

Don't wait too long until your phone is ready to work again. The charger provides up to 15 W of power and is backward compatible with 10 W, 7.5 W and 5 W. It also supports such fast charging standards as PD, QC and AFC. This allows you to charge your chosen devices in no time!

For the sake of safety

Enjoy not only fast, but also safe charging. Among other things, the Vention charger is protected against overheating, overcurrent and short-circuit, and if you accidentally place an object such as a key, coin or scissors on it, it will immediately cut off power to prevent any possible danger. But it doesn't stop there - when the smartphone is charged to 80%, the product will automatically switch to trickle mode to extend battery life.

Convenient use

The charger is equipped with high-quality magnets, so it can provide unparalleled stability to a smartphone placed on it, for example, an iPhone 12 or 13. Don't worry about the device falling or sliding around! You can also use your phone comfortably while charging. At the same time, the charger is very light and compact - it weighs only 39.5 g and is only 4.65 mm thick. What's more, you don't have to take your smartphone out of the case to charge it!

In the box
