

Mini Hub USB 3.0 to USB 3.0/3x2.0 Vention CKOHB 0.15m

Ref: 6922794773271

Mini Hub USB 3.0 to USB 3.0/3x2.0 Vention CKOHB 0.15m

Mini Hub USB 3.0 to USB 3.0/3x2.0 Vention CKOHB 0.15m

Use the full potential of your laptop! The Vention CKOHB Mini Hub offers up to 4 USB ports, giving you the ability to connect several devices simultaneously, so you can forget about the problem of not having free USB ports on your laptop. The USB3.0 port offers a throughput of up to 5 Gbps, while the USB2.0 port provides a speed of 480 Mbps. Its lightweight and extremely compact design means you can take it with you almost anywhere.

Many possibilities

The mini hub provides you with everything you need in one place! It is equipped with three USB2.0 ports and one USB 3.0 port, allowing you to connect multiple USB devices simultaneously and transfer data at incredible speeds. With these USB ports, you can easily connect your favorite devices such as a mouse, keyboard, printer or flash drive.

Bet on security

The hub was created with security of use in mind. The advanced chip provides even better transmission signal and faster performance. Thanks to this, copying or transferring files will take you only a few seconds. High-quality aluminum alloy was used to make the hub, which is responsible for effective heat dissipation. So you don't have to worry about its overheating. Moreover, it is highly resistant to wear and tear, as well as leaving fingerprints.
