

Wireless Gamepad NSW PXN-9607X (Pink)

Wireless Gamepad NSW PXN-9607X (Pink)

Ref: 6948052902832

Wireless Controller / GamePad PXN-9607X

Equip yourself with the functional and versatile PXN-9607X game controller. It is compatible with personal computers and the Nintendo Switch console. It has many useful features - such as NFC support or turbo mode and a 6-axis gyroscope. It draws power from a powerful battery that provides up to 20 hours of use on a single charge.

Broader compatibility

The gamepad is compatible with Windows 7/8/10 and the Nintendo Switch console. So you can use it seamlessly to play on PC and console - without having to replace the controller. Connect it to your PC via USB or Bluetooth (Steam games only), or to your Nintendo Switch via Bluetooth, and enjoy comfortable, fluid control.

Many useful features

The gamepad features a number of practical modes and solutions. The Wake-up function allows you to restore operation from sleep mode with the press of any button. Additionally, the Home button is able to wake up the Nintendo Switch console. What's more, you can also use the Turbo function.

More features

The controller is equipped with a 6-axis gyroscope, which makes it compatible with Motion Control technology. Additionally, it has 3 levels of vibration intensity. NFC reading function is also an interesting feature. You can easily integrate your Nintendo action figure with the console by placing it on the gamepad (Amiibo).

Efficient power supply

The controller draws its power from an efficient lithium battery with a capacity of 550 mAh. It allows for up to 20 hours of operation of the device on a single charge. Power can be restored in about 2 hours. Thanks to this, the gamepad will accompany you during long gaming sessions, without unnecessary interruptions.
