Deli Tools Hecksaw EDL353712

Equip yourself with a versatile hacksaw that will allow you to cut stainless steel, copper, aluminum, plastic and many other materials. The durable and sharp blade will allow you to work efficiently, and the sturdy aluminum construction with a PP material handle makes it very comfortable to use.

Efficiency above all

A special saw blade (300 mm - 12") made of 65 Mn spring steel is responsible for efficient work. It enables you to cut wood, plastics, aluminium, copper, stainless steel and other materials efficiently. Bet on top quality for more possibilities.

Well thought-out design

The saw frame is made of aluminium alloy, which makes it extremely sturdy while maintaining its low weight. What's more, the handle is made of PP thermoplastic for a comfortable and secure grip during use. The saw blade can be easily replaced by a new one thanks to its twist-off design.
