McDodo CA-7310 1.8m USB to USB-C angled cable (black)

Enjoy convenient and fast charging with the McDodo CA-7310. The maximum current of the cable is up to 3A, and the angled design and maximum cable length of 1.8m will allow you to use your smartphone comfortably while charging. With its help you will charge your phone and transfer data at the same time.

Durable design

The spring-loaded 1.8m cable will allow you to use your phone comfortably while charging. The nylon braid makes the cable as durable as possible, it won't tangle, and its reinforced ends are resistant to bending and damage.

Convenience without limits

The double-sided USB plug allows you to conveniently connect the cable to the charger. The LED indicator will make it easy to find your phone at night by displaying the charge level. In addition, the McDodo CA-7310 cable is compatible with iPhone models from the 11/12/13 series.

Fast data transfer

The cable's copper core has been thickened, making charging and data transfer even faster. With the McDodo CA-7310 cable you transfer files at 480Mbps while charging your phone at the same time.

Secure charging

This is not the end of the product's advantages. The Mcdodo cable is equipped with an improved smart chip, which affects faster and safe charging of your device. This ensures that your equipment is protected from damage.
