Ref: 6921002681506

Mcdodo CA-8150 mini DisplayPort - DisplayPort cable, 2m (black)

Indulge in full immersion into the gaming world and enjoy 4K quality images on the big screen with the mini DP/DP cable from Mcdodo! The product is widely compatible with many devices and will allow you to duplicate and split images. It also provides stable transmission and perfect synchronization of video and audio. The image resolution is up to 3840 x 2160 k. What's more, thanks to HDR, the colors will be saturated and the image will be clear and rich in detail.

Wide compatibility

Connect the devices of your choice with each other using the Mcdodo cable and enjoy various picture modes on the big screen. Copy, Expansion and Splicing functions will be at your disposal, so you can freely duplicate or split images. The DP interface is compatible with computers, TVs, monitors and laptops, among others. The mini DP, on the other hand, will connect to Mackbook Air / Macbook Pro, iMac, Mac Pro / Mac Mini and Surface devices.

Ideal for gamers

The mini DP/DP cable from Mcdodo will certainly come in handy for gaming enthusiasts. Perfect synchronization of video and audio will

allow you to react instantly to the movement of your opponent during dynamic gameplay. The image in 3840 x 2160 k resolution will delight you with a wealth of details. What's more, the frequency reaches up to 165 Hz, and the quality - up to 4K. Feel like a real hero of your favorite game!

Refined design

When designing the mini DP/DP cable from Mcdodo, the focus was not only on functionality, but also on the durability of the product and safety of use. The cable is made of high-quality materials, so it is repulsive to traces of use and will serve you for a long time. It also provides multi-level protection and efficiently distributes heat, so you can enjoy stable transmission.
