Ref: 6975102945594

Insulated Labor-saving Combination Plier Deli Tools EDL512008

Deli Tools Work Saving Combiners EDL512008

Deli Tools's work-saving pliers are a tool that is designed to help you with cutting, bending and shaping various materials. Made of the highest quality Cr-V material, they are durable and resistant to damage. The product has passed VDE certification. This certifies that it can withstand 1000V, making it an ideal tool for electrical work.

### Robust design

The pliers have a two-tone insulated plastic handle, which provides comfort and stability, even for extended periods of work. In addition, the tool has a Blackening finish and is polished several times, which increases its resistance to corrosion and abrasion, as well as providing an elegant appearance. Tinker comfortably and safely with Deli Tools!
