

Set of 2 variable filters Freewell DJI Osmo Pocket 3 ND 1-5

Ref: 6972971865060

Set of 2 variable filters Freewell DJI Osmo Pocket 3 ND 1-5 Stop, 6-9 Stop

Freewell DJI Osmo Pocket 3 VND 1-5 Stop, 6-9 Stop

The set includes 2 VND 1-5 stop and VND 6-9 stop filters. They are designed for DJI Osmo Pocket 3 pocket cameras and allow you to use wider aperture settings for shallower depth of field or motion blur. To change the polarization effect, simply twist the filter ring. They also stand out for their resistance to dust, scratches and greasy stains. What's more, they are extremely lightweight, and the magnetic design ensures quick and easy installation.

Protective coating

Made of the highest quality materials, the filters have a special protective coating that does not affect the color optics of the materials created. The filters are therefore resistant to dust and scratches, as well as fingerprints and the formation of greasy stains, so keeping them clean is no problem. At the same time, they provide the best image quality and allow you to maintain neutral image colors. Your photos will be stunning!
