

McDodo CH-2062 Magnetic Charger for Apple Watch, USB-C (Blac

Ref: 6921002620628

McDodo CH-2062 Magnetic Charger for Apple Watch, USB-C (Black)

McDodo CH-2062 magnetic charger for Apple Watch, USB-C (black)

Charge your Apple Watch quickly and safely. The McDodo CH-2062 provides convenient magnetic charging, and thanks to its various safety features, you don't have to worry about damaging your equipment. What's more, it's lightweight and compact, with a detachable cable for easy storage. In addition, the charger is compatible with all Apple Watch models.

Fast magnetic charging

The Mcdodo charger uses a strong magnet to ensure stability - all you have to do is bring your watch close to the CH-2062. What's more, it will take around 2 h to charge your Apple Watch, so you don't have to wait indefinitely until your device is ready to go.

Safe to use

Use the charger without worrying about damaging your Apple Watch. The Mcdodo CH-2062 offers protection against overcurrent, short circuit, overcharging and overheating. So you can be sure that charging your equipment is safe and stable.

Lightweight and compact

Charge your smartwatch no matter where you are. The charger weighs just 19.7 g and is compact (40 × 28 × 5.8 mm), so it won't take up much space. You can successfully pack it in your handbag or backpack and take it on holiday, to university or to work.
