Ergonomic Keyboard Delux GM902PRO

Ref: 6938820414179

Delux GM902PRO BT+2.4G ergonomic keyboard

The Delux GM902PRO ergonomic keyboard is designed for people who spend a lot of time at the computer. It has been designed to provide maximum comfort. The keyboard features scissor-switched keys and is extremely durable. You can connect it to your computer wirelessly - via Bluetooth or 2.4G. Also noteworthy is the soft backlighting with adjustable brightness, which gives it a unique character.

Reliable switches

Enjoy unparalleled comfort while working at your computer. The keyboard features scissor switches that respond quickly to each press and operate exceptionally quietly. Not only do they provide reliable performance, but they also provide the comfort you dream of!

Ergonomic design

Delux proves that working at the computer can be more comfortable. Thanks to its ergonomic design and built-in support in pleasant-to-touch synthetic leather, the GM902PRO keyboard takes the strain off your wrists - forget pain and fatigue! What's more, the device's keys feel pleasant to the touch and yield easily to your fingers, making work even easier.

Reliable wireless connection

You can connect the GM902PRO to the device of your choice in 2 ways - via Bluetooth 5.0 or in the 2.4G band. Thanks to the solutions

used, it provides fast, stable and reliable signal transmission. What's more, you can pair it with up to 3 devices at the same time, and the dedicated keys allow you to switch between them freely!

Useful function keys

Now you can make your work even easier. The keyboard has been equipped with practical function keys that make it even easier to use. For example, you can use them to switch between windows, adjust the brightness, manage your music player or take screenshots.

With attention to detail

Do you often spend the evening in front of the computer? A backlit keyboard will be a great choice! The GM902PRO features LED backlighting, which not only adds to its character, but will also improve your visibility after dark. You can conveniently adjust its brightness in 4 levels - just press the right key!
