Tablet Teclast T50 11" 8/256 GB 2.4+5G WIFI Grey

Teclast T50 Gray 11" Tablet

The Teclast T50 tablet is the perfect device for those who appreciate powerful components and discreet construction elegance. Its minimalist design with an elegant aluminum casing, rounded corners, and slim bezels perfectly complements the latest features. Thanks to the Unisoc Tiger T616 processor, impressive 8GB of expandable RAM up to 16GB, and large 256GB internal storage, expandable up to 1TB, the T50 is synonymous with smooth and efficient performance.

Processor and Memory

The tablet is equipped with the Unisoc Tiger T616 processor, made using advanced 12nm technology, with two powerful Arm Cortex-A75 cores and six intelligent AI Cortex-A55 cores. This ensures unparalleled performance and smooth operation. Additionally, 8GB of LPDDR4X RAM, expandable to 16GB, and 256GB of internal storage, expandable up to 1TB, guarantee that data storage and multitasking are easier than ever before.

Display and Graphics

The 11-inch fully laminated TDDI display with a resolution of 2000 x 1200 IPS and a 120Hz refresh rate offers exceptionally smooth visuals and vibrant colors. This combination, along with the Mali-G57 graphics processor, makes every graphic, movie, or game look incredible.

Sound and Communication

The T50 tablet offers excellent sound quality with Sweet 4 stereo speakers and a 4-directional amplifier. Two microphones with Environmental Noise Cancellation (ENC) ensure clear conversations. Additionally, VoLTE support allows for simultaneous calls and internet use without interruptions.

Multimedia and Connectivity

The rear camera with a 20MP IMX376 sensor and integrated flash provides high-quality photos and videos. The tablet supports 5G connectivity, Bluetooth 5.0, and has a SIM/Micro SD card slot up to 1TB, making it the ideal tool for multimedia enthusiasts and people on the go.

Sensors and Operating System

The T50 is equipped with various sensors, such as light, distance, and Hall sensors, which automatically adjust the tablet's settings to the surrounding conditions. With Android 13 as the operating system, it offers stability, speed, and access to the latest applications and updates.
