

## Teclast P40HD Tablet 10.1" 8/128 GB LTE WiFi (grey)

Tablet Teclast P40HD 10.1" 8/128 GB LTE WiFi Grey

Ref: 6940709685266

### Teclast P40HD Gray 10.1" Tablet

The Teclast P40HD tablet combines modern technology with elegant design. This lightweight and slim tablet features a 10.4-inch fully laminated TDDI display that delivers vibrant and crisp images with a resolution of 2000 x 1200 and a wide 178° viewing angle. With Android 13 onboard, an advanced Unisoc T606 processor, and an impressive 7200mAh battery, the Teclast P40HD is the perfect companion for work, entertainment, and everyday use.

### High-Quality Display

The Teclast P40HD tablet's display represents the pinnacle of modern technology. The 10.4-inch TDDI screen with a resolution of 2000 x 1200 pixels provides incredibly detailed and vibrant visuals. The innovative T-Colour3.0 color optimization technology enhances color intensity and naturalness, significantly improving the user's visual experience. Additionally, the wide 178° viewing angle allows comfortable screen viewing from various perspectives without compromising image quality. The 120Hz refresh rate ensures smooth and sharp motion, which is particularly important for playing dynamic games or watching movies.

### Minimalist Design

The Teclast P40HD tablet stands out with its simple, minimalist design featuring straight edges and rounded corners for added elegance and ease of grip. The slim 8-millimeter bezels maximize screen space utilization, essential for work and entertainment comfort. The fully

laminated TDDI display with a 120Hz refresh rate ensures exceptional image quality and smooth motion.

#### Android 13

Android 13 offers users extensive customization options and enhanced security. Intuitive multitasking, improved parental control, and increased privacy are just some of the benefits of this system. Thanks to Android 13, using the Teclast P40HD becomes safer and more tailored to individual needs.

#### High Performance with Unisoc T606 Processor

The heart of the tablet is the Unisoc T606 processor with eight cores, ensuring smooth operation even with demanding applications and games. The combination of two A75 cores running at 1.6GHz and six power-efficient A55 cores, along with Mali-G57 graphics clocked at 650MHz, guarantees fast and efficient performance.

#### Storage Capacity and Battery Life

The 7200mAh battery in the Teclast P40HD provides an impressive battery life. Users can enjoy 8.5 hours of internet browsing, 6.5 hours of gaming, 12 hours of reading eBooks, or 9 hours of movie watching on a single charge. This makes the tablet perfect for long trips or intensive daily use.

#### Multimedia and Security

The dual 13-megapixel AI camera enhances focus speed, improving the quality of photos and videos. Additionally, the tablet supports facial unlocking, adding an extra layer of security and convenience.

#### SWEET 4 Digital Audio Amplifier

The tablet features a simple, minimalist design with straight edges and rounded corners. The cameras and LED are symmetrically placed in the upper left corner. The black bezels surrounding the screen are only 8mm thick, allowing for comfortable work and immersion during play.
