Ref: 6953460597358

Mechanical gaming keyboard Motospeed CK101 RGB (white)

Motospeed CK101 gaming keyboard

Motospeed CK101 is a gaming keyboard with RGB backlighting that will meet the expectations of any gamer. Equipped with Outemu Red switches, it will perform well during both gaming and typing. Thanks to N-key rollover, you can press any number of them simultaneously and be sure that your movements will be registered. At the same time, the device is compact and ergonomic - take it with you wherever you want and enjoy comfortable gameplay for hours.

Gaming character

Configurable RGB backlighting gives the device a unique gaming character. You can easily customize its appearance to your preferences by choosing from 14 available backlighting modes. As a result, the CK101 keyboard can become a real ornament of any gamer's desk.

Solutions that will make your gameplay easier

The keyboard's mechanical switches ensure incredibly fast response times and extremely comfortable gameplay - you will respond to your opponents' every move in no time. What's more, the ability to lock the WIN key will allow you to avoid accidentally interrupting the game. N-key rollover ensures that every press is accurately recorded, so you can easily break new records.

Even simpler operation

Mobilemax - Gadgets and Accessories

Rua Vasco da Gama n61, 8005-411, Estoi - Faro, Portugal
(Continente)

The keyboard's multimedia function keys make operating your computer even easier. Use them to quickly and conveniently adjust playback volume, switch songs, check your email inbox or access the Internet. Whether you're gaming or working, you'll save time with the CK101 keyboard!

Handy and ergonomic

The keyboard is lightweight, small and handy. It's also equipped with a detachable cable, so you can safely transport it when needed. The device is also distinguished by its elegant yet ergonomic design - it does not strain your wrists and does not tire your hands, providing comfort for long hours of gaming or work.
