

## Filter PolarPro Recon Stage 2 | BlueMorphic

Filter PolarPro Recon Stage 2 | BlueMorphic

Ref: 817465028117

PolarPro Recon filter - Stage 2 | BlueMorphic

Now you can create exceptional shots with the BlueMorphic filter. It is dedicated to the PolarPro Recon system. It will allow you to get unique blue flares in bright images or reflections without using an anamorphic lens. In addition, the filter consists of 16 layers that are resistant to liquids and scratches, and the German Cinema Series glass ensures durability.
