

## Mechanical keyboard Dareu EK87 (white)

Ref: 6950589903312

Mechanical keyboard Dareu EK87 (white)

Dareu EK87 mechanical keyboard (white)

Any gamer, being in possession of this keyboard, will appreciate its qualities. The device is equipped with backlighting and specially designed ABS plastic buttons. Noteworthy in particular is the mechanical switch with a lifespan of up to 50 million clicks and n-key rollover. All this adds up to a keyboard that can satisfy even the most demanding users. The white keyboard is equipped with Icy Blue backlighting, giving original contrast and visibility for gamers who are not necessarily interested in RGB.

N-key rollover

Have confidence that every keystroke will be properly registered and enjoy lightning-fast response. The keyboard offers N-key rollover, which means you no longer have to worry that due to malfunctioning hardware, you'll fail to execute a complex combination during an in-game attack! What's more, the ergonomic, curved ABS plastic buttons provide comfort.

Combination function

The keyboard is equipped with function keys, which provide quick and convenient access to many useful settings. Using them, you can, for example, adjust the backlight, turn it on or off, change the speed to a higher one, adjust the volume or start the player.

Compatibility

This model is compatible with Windows XP, Windows Vista, Windows 7, Windows 8 and Windows 10, so you can successfully connect it to various types of hardware. Check if you also own one of them.
