

HiFuture YACHT Earbuds Black

HiFuture YACHT Earbuds Black

Ref: 6972576181367

HiFuture YACHT Wireless Headphones (black)

Take your music experience to a new level! HiFuture YACHT headphones support aptX technology for even better sound quality. They allow you to make phone calls, eliminating annoying background wind noise thanks to CVC8.0 technology. They have a runtime of up to 20 hours, and their waterproof design (IPX5) makes them ready for any challenge.

Music on a whole new level

Get ready for an amazing sound experience that will transport you to another world. HiFuture Yacht headphones guarantee deep bass and excellent sound quality that will let you hear every note in its full glory. They support aptX technology, which provides sound quality with an almost studio-like sound. Every sound is crystal clear, and every sound detail is perfectly balanced - all of which will make you feel like you're at a concert by your favorite artist.

Clear phone calls

Forget about annoying background noise and focus on the conversation! The headphones use advanced CVC8.0 wind noise cancellation technology, which means you can enjoy exceptional clarity when making phone calls even on windy days. So you can rest assured that your callers will hear clearly what you have to tell them.

Stable wireless connection

Forget about connection problems! Using Bluetooth 5.2 and a Qualcomm chipset, they provide a stable and fast connection to your device, with no loss of sound quality. You no longer have to worry about annoying dropouts or audio delays.

Play music all day long

The HiFuture YACHT headphones will let you enjoy music for a long time. With an impressive 20 hours of operation on a single charge, you can enjoy the sounds of your favorite songs all day long without worrying about having to recharge frequently. If you suddenly run out of power, a quick charge via USB-C with 10 watts of power will get you back to listening even faster. What's more, a 4-level light indicator will let you know the battery charge level.

Convenient operation

Operating the headphones won't be a hassle for you. Thanks to the built-in touch panels, you have full control over your music and calls. Gentle touches will allow you to change songs, adjust the volume, launch the voice assistant and manage incoming calls. Now everything you need is at your fingertips!

Your all-weather companion

HiFuture Yacht are headphones that are ready for any adventure. With an IPX5 waterproof rating, they're not intimidated by sweat or raindrops. Whether you're walking the dog in the park on a rainy day or doing an intense workout at the gym, the headphones will stay in perfect condition.
