

## Thunderrobot Dual-Modes Gaming mouse ML703 (black)

Thunderrobot Dual-Modes Gaming mouse ML703 (black)

Ref: 6932066309114

### Thunderrobot ML503 Wireless Gaming Mouse (Black)

For gamers, having complete control over every move is crucial. Thanks to the advanced PAW3104 sensor with a resolution of 8000DPI, the Thunderrobot ML503 mouse ensures precision and smooth operation.

### Reliable Switches: Huan Yu 20M

Nothing is worse than a mouse that fails at critical moments. That's why the Thunderrobot ML503 is equipped with Huan Yu switches, which have a lifespan of up to 20 million clicks. This ensures that the mouse will serve you for a long time, regardless of gameplay intensity.

### RGB Lighting: 3 Zones

Express your style during gameplay. The ML503 mouse features three RGB lighting zones. Add colors to your gameplay!

### Versatile Connection: Wired and Wireless

Depending on your needs, you can use the mouse in wireless mode with 2.4G technology or in traditional wired mode. The package includes both a cable and a receiver, offering complete flexibility.
