

Wall Charger XO L77, USB-C (White)

Wall Charger XO L77, USB-C (White)

Ref: 6920680873159

XO L77 power charger, USB-C

The XO L77 charger is designed for Apple-branded devices. It supports fast PD charging and stands out for its power of up to 20W. It is equipped with a USB-C port and ensures safe use. At the same time, it is extremely lightweight, yet durable.

Enjoy fast charging

Don't wait too long until your devices are ready to go again. The L77 supports the PD fast charging standard, which means that, combined with the right cable, it can restore power to your chosen devices up to 2x faster than regular chargers. For example, it only takes about 30 minutes to charge an iPhone 11 to 50% using it!

Safety of use

The L77 charger will not only charge your device's battery, but also protect it from damage. After restoring a certain amount of energy to it, it will automatically switch to a holding charge, which will help prolong its life. The product has also been protected against overvoltage and overheating, among other things, and its housing is made of durable, flame-retardant materials.

Hassle-free transportation

Thanks to the use of high-quality materials, the charger is extremely durable, yet lightweight - it weighs only about 40g. It also stands

out for its compact, handy design, so you can easily pack it in your purse or backpack. You no longer have to give up the ability to quickly charge your devices when you leave the house - take the L77 with you and use it whenever you need to!
