Smart switch Sonoff MINIR4M Matter

Ref: 6920075740516

Sonoff Smart Switch MINIR4M

Revolutionize your home environment with the Sonoff Smart Switch MINIR4M - an innovative device that combines advanced technology, versatility, and safety. Thanks to its Matter compatibility, MINIR4M works seamlessly with various end-user device brands and platforms such as Alexa, Apple Home, and Google Home. Its miniature size allows for easy installation, while TÜV, CE, and FCC certifications ensure safety and reliability. Discover how MINIR4M transforms managing home devices into a simple, efficient, and enjoyable task.

Matter Compatibility

As a Matter-certified device, SONOFF MINIR4M ensures smooth compatibility with a variety of devices and platforms. Its ability to integrate with systems like Alexa, Apple Home, and Google Home makes managing home devices intuitive and convenient, allowing control of all smart devices through a single application.

Mini Size

The compact dimensions of MINIR4M make it ideal for mounting in various enclosures, including the smallest 86/EU type. This compact design allows for easy and discreet installation without disrupting the interior aesthetics.

External Switch Control

The device offers flexibility in control, allowing easy connection to various types of switches, including momentary, output, SPDT, latching, and potential-free contact sensors. This functionality provides users with a wide range of control and integration options with existing systems.

Relay Disconnection Mode

The innovative "relay disconnection mode" in MINIR4M means that the states of external switches and the relay are separated. This allows the use of an external switch without affecting the relay state, increasing flexibility and control possibilities.

Safety and Reliability

With TÜV, CE, and FCC certifications, MINIR4M provides users with peace of mind through increased safety and reliability. Its robust construction and advanced technical features ensure durability and operational efficiency.
