Smart Zigbee Wireless Switch Sonoff SNZB-01P (round)

ZigBee Smart Switch Sonoff SNZB-01P (Round)

SONOFF SNZB-01P is a revolutionary ZigBee smart switch that will transform any home into a smart space. Its compact, round design and ease of use make it the perfect choice for those looking to upgrade their home control systems without complications. From custom button actions to long battery life and compatibility with the latest Zigbee 3.0 protocol, the SNZB-01P offers many features that simplify life.

Easy Installation

SONOFF SNZB-01P is characterized by its simplicity of installation. Thanks to the external pairing button and the possibility of mounting with the included 3M adhesive and metal plate, you can easily place the switch anywhere in your home. This makes the SNZB-01P incredibly flexible to use, allowing for quick and easy device relocation when needed.

Custom Button Actions

SONOFF SNZB-01P offers unmatched flexibility in button configuration. You can customize single, double, or long presses of the button to control multiple devices. This feature not only provides convenience but also allows you to create personalized scenes in your home, increasing efficiency and comfort of use. The SNZB-01P also offers the ability to review the operation history from the past three months, which is particularly useful for those who want to monitor the frequency and types of actions performed, aiding in analyzing usage.

patterns in the home.

Zigbee 3.0 Compatibility

Its compatibility with the Zigbee 3.0 protocol ensures seamless integration with a wide range of smart devices. The switch can be easily added to any Zigbee 3.0 hub, making it a universal solution for modern homes.

Alexa Routines Activation

Integration with Alexa allows you to trigger voice routines with a simple button press. This feature transforms the SNZB-01P into an incredibly functional tool that combines voice control convenience with a physical interface.

Alarm Button

In emergency situations, the SNZB-01P can serve as an alarm button. A single press is all it takes to send notifications to your phone, which is crucial for the safety of your family and home.
