

## Smart Switch Wi-Fi Sonoff S-MATE2 (no neutral)

Smart Switch Wi-Fi Sonoff S-MATE2

Ref: 6920075740936

### Intelligent Wi-Fi Switch Sonoff Smart Switch S-MATE2

Discover a new level of quality with the Sonoff Smart Switch S-MATE2 Wi-Fi switch. This innovative product combines performance, ease of use, and elegant design, making it an indispensable element of any smart home. Equipped with a durable battery, supporting mechanical switches, made of high-quality ABS material, and presented in classic white color, S-MATE2 is the ideal solution for those who value reliability and style.

### Long Battery Life

One of the key advantages of the Sonoff S-MATE2 is its impressive battery life, exceeding 5 years. This provides peace of mind to users and reduces the frequency of battery replacement, which is not only convenient but also environmentally friendly. The CR2477 battery model ensures uninterrupted device operation, which is particularly important in home automation systems.

### Easy Battery Replacement

The battery replacement process in S-MATE2 has been designed for maximum simplicity and user convenience. Thanks to this, even people unfamiliar with modern technologies can easily replace the battery, which is important for daily device operation.

### Compatibility with Mechanical Switches

S-MATE2 works perfectly with traditional mechanical switches, which is an important feature for those who do not want to give up their existing solutions. This functionality allows easy integration with the existing electrical system in the home without requiring costly or time-consuming modifications.

#### Minimalist Design and High-Quality Construction

The Sonoff S-MATE2 switch stands out with its minimalist design and high-quality construction. Compact dimensions (40.3 x 37.4 x 18.3mm) and an elegant white color make the device blend seamlessly with any interior. Made of durable ABS material, it ensures long-lasting durability.

#### Multi-Channel Functionality

The S-MATE2 model offers support for up to three channels, enabling flexible management of various devices in the home. This feature significantly expands the configuration possibilities of the system and allows customization to meet the individual needs of the user.
