Ref: 4894240111024

Car holder ESR HaloLock with Qi inductive charger, MagSafe (black)

ESR HaloLock car mount with Qi inductive charger, MagSafe (black)

Enjoy navigation comfortably and charge your phone quickly with ESR's mount. The product also offers a wireless charging function, for greater convenience. It will therefore be perfect for long trips. Thanks to its thoughtful design, it does not block visibility. In addition, it is dedicated to iPhone 14 / 13 / 12.

Conveniently charge your phone

Going on vacation or maybe on a business trip? In such and similar situations, the ESR mount will prove its worth. The product allows you to wirelessly charge your iPhone 14 / 13 / 12 and allows you to quickly renew the device's power.

Safety of use

The holder is equipped with magnets and finished with silicone, which ensures stability and prevents the smartphone from moving. Slowing thresholds, bumpy roads, sudden braking - these and other obstacles pose no threat to the mount. With ESR you are assured that your device is safe.

Comfort of use

Are you worried that the mount will cause visibility problems? Don't be! The product is designed to provide the ultimate in comfort. As a

result, the smartphone sits at the height of the ventilation grille, ensuring comfortable and safe use.

User-friendly

This is not the end of the advantages of the ESR mount. The product is equipped with a movable head, which allows you to use your smartphone both vertically and horizontally. It is also possible to adjust the height and position of the mount to suit your needs. Moreover, its installation will not cause you any problems.
