

Waterproof Dive Case PULUZ for Insta360 X3

Waterproof Dive Case PULUZ for Insta360 X3

Ref: 5905316149311

Puluz Waterproof Case for Insta360 X3 Camera

The Puluz Waterproof Case allows you to capture underwater footage with the Insta360 X3 camera at depths of up to 50 meters! It is made of high-light transmittance plastic - the lens material is PMMA with 95% light transmittance, which reaches 98% after applying an anti-reflective AR coating. Thanks to its unique housing design, all dead zones have been eliminated. The surface has a hardness level of 5H, comparable to ordinary glass, making it resistant to fingerprints and scratches. Furthermore, the metal parts are made of 304 stainless steel, so there is no need to worry about corrosion.
