Smart Curtain Switch Module WiFi Avatto N-CSM01-1 TUYA

Intelligent WiFi roller shutter controller Avatto N-CSM01-1 TUYA

The Smart Roller Shutter Controller is a modern solution for people who value convenience and comfort in their daily life. With remote control via the Smart Life/Tuya Smart app, you can control your home's blinds anywhere and anytime via your phone or tablet. The controller is also compatible with Amazon Alexa and Google Home voice assistants, offers the ability to adjust the degree of opening of the blinds, as well as create schedules. Check out how convenient it is!

Adjust the degree of opening

The function for adjusting the degree of opening of the blinds allows you to precisely set the level of window exposure using a percentage bar or voice commands. Such a solution will help you adjust the amount of light that enters the room and create the right atmosphere for your activities!

Group your devices

Avatto's ZigBee blinds controller allows you to group several devices so you can control blinds in different rooms. Thanks to the "Linkage" function, the controller can work with other modules, sensors and devices in the house, allowing you to create different scenarios, such as sleep mode, work mode, dinner mode or coming home. Note: The single-channel module supports only one signal at a time.

Create a work schedule
The controller also has a scheduling function, so you can schedule automatic control of the blinds according to your needs. Make your blinds unveil at the same time every day, making your wake-up call more pleasant. The smart home will adapt to your rhythm!

Shared management
The "Family Share" function allows you to change permissions and allow other users to access roller shutter management. This way, all household members will be able to enjoy the smart home and effortlessly adjust the degree of opening the blinds to their own preferences.

Easy installation
The ZigBee Avatto smart roller shutter controller is easy to install. However, you need to turn off the electric power before installation. The installation will not cause you much trouble and will not take much time.

Included
Module
Holder
