

## Magnetic suction base for Insta360 GO3

Magnetic suction base for Insta360 GO3

Ref: 6974944461927

Magnetic suction base for Insta360 GO3

Gain a unique perspective and capture a multitude of interesting shots. The TELESIN magnetic mounting base allows you to securely attach the Insta360 GO3 camera to any metal surface - such as a railing, refrigerator, or car. It's an excellent way to record intriguing video material! The accessory is also very easy to install and durable. It stands out for its compatibility with other mounts (e.g., for phones) available for separate purchase.

### Strong Magnets

The TELESIN magnetic mount provides you with many exciting recording possibilities. It's equipped with 6 strong neodymium magnets and has a load-bearing capacity of up to 300 grams. This ensures that the camera mounted on it is secure - no need to worry about it falling and getting damaged. Furthermore, the bottom part of the mount is lined with silicone, so you don't have to worry about scratching the surface to which you attach it.
