Ref: 6974944461293

Protective case combo TELESIN for GoPro Hero 12/11/10/9

Protective case combo TELESIN for GoPro Hero 12/11/10/9

Capture the beauty of the underwater world. The TELESIN waterproof case kit will effectively protect your GoPro Hero camera from damage and allow you to submerge it safely up to a depth of 45 meters. Thanks to the use of high-quality glass with a light transmittance of 95%, you can enjoy excellent image quality and vibrant colors. The included anti-fog inserts prevent lens fogging. Now you can effortlessly create perfect underwater shots!

#### Well-Designed Construction

The components of the case kit are exceptionally solid and durable. It is made from sturdy PC material, effectively protecting your camera from scratches and other damage. Furthermore, the product is perfectly designed for GoPro Hero 12, 11, 10, and 9 models, providing essential protection without compromising usability. Additionally, this accessory is not only suitable for diving; it also includes replaceable backdoors that ensure efficient heat dissipation and convenient use of the camera's touch screen.
