

Waterproof selfie stick Telesin 360° for sport cameras (GP-M

Waterproof selfie stick Telesin 360° for sport cameras (GP-MFW-300)

Ref: 6972860176437

The Telesin GP-MFW-300 waterproof selfie stick with tripod for sports cameras

Are you looking for versatile tools to create original shots with your sports camera? This practical, waterproof accessory by Telesin will certainly meet your expectations! It can be used as a selfie stick, a rotating hand grip and a tripod, or it can float on water. Its maximum height is 60 cm, which gives you almost unlimited possibilities. It is compatible with most sports cameras available on the market.

Multiple accessories in one

This unique accessory will work for many different applications. It can be used as a hand grip and a convenient selfie stick. The product is also equipped with folding legs, so you can easily turn it into a stable tripod. The accessory is also waterproof and thanks to its well-thought-out design, it floats perfectly. It is also suitable for taking spectacular shots at the sea or ocean.

The reliable selfie stick

Want to take a stunning photo of yourself against a breathtaking landscape? Or are you planning to take a fun group selfie with your friends? With Telesin it will be easier than ever before! The expandable selfie stick allows you to capture exactly the shot you want. What's more, the accessory rotates 180°, allowing you to fine-tune your recording angle.

Practical hand grip - record stable shots

Create smooth shots in almost any conditions. The accessory can stabilize your camera's gimbal, making it fantastic for example as a hand grip. The design of the product allows its 3-stage folding, which allows you to adjust its length up to 60cm, and the angle of recording up to 360°. Enjoy almost unlimited freedom and prepare your next original material!

Stable tripod - adjustable height

The tripod's legs have been placed inside the handle - they won't bother you when you're not using them. To remove and unfold them, simply unscrew the base of the accessory - it will only take a moment! The tripod is extremely durable and stable - you don't have to worry about the safety of your equipment mounted on it. The 3-stage height adjustment within the range of 6.5/27.5/60cm allows you to perfectly adjust it to your needs.

Prepare amazing shots underwater

Inside the holder, you will find an empty compartment that allows you to conveniently store small items. You can also pour water into it to make the accessory hold better under the sea or lake. This is your new way to create original underwater shots!

Wide compatibility

What else makes the accessory perfect for different applications? Its wide compatibility! The product fits most of the sports cameras available on the market from well-known manufacturers. You can successfully use it with GoPro, DJI Osmo Action, Insta360 ONE R or SJCAM, among others.

Convenience and safety

The product is extremely durable and resistant to damage. It also ensures the safety and stability of the sports camera mounted on it. The grip of the selfie stick is made of pleasant to the touch, anti-slip PC plastic. This makes the accessory fit perfectly in your hand - you can use it comfortably even for a long time. You also do not have to worry that it will fall out of your hand and cause damage to your camera.
