

Selfie stick Telesin for sport cameras 0,9m (GP-MNP-90T)

Selfie stick Telesin for sport cameras 0,9m (GP-MNP-90T)

Ref: 6972860174600

The Telesin GP-MNP-90T selfie stick

This carbon fiber selfie stick by Telesin stands out for its excellent weight-to-weight ratio - weighing just 113 g, it can handle devices up to 1.5 kg. With its help you can effortlessly create original shots. 2 available lengths and the included tripod will allow you to adjust the accessory to your needs even better. The product is extremely durable and compatible with many cameras.

Unique combination of lightness and strength

The selfie stick is made from imported carbon fiber, which helped increase its strength by up to 40% while reducing its weight by 30%. This handy accessory is also incredibly compact when folded - take it on a trip or outdoors and enjoy unlimited creative freedom! The Selfie Stick is also corrosion resistant - even in the rain.

Compatible with your action camera

The product is compatible with various models of sports cameras. You will use it in conjunction with GoPro Hero, DJI Osmo Action, SJCAM, Xiaomi Yi and other similar devices. No matter what equipment you are using - with Telesin you will ensure even more recording possibilities.

Customize it to your expectations

Customize the length of the selfie stick to suit your needs. The available values are 25 cm up to 90 cm. Adjusting the accessory is incredibly easy - just twist it in the right direction. Do you need a stable tripod? The tripod you will find in the set allows you to set the selfie stick with the camera on a flat surface, so you can free your hands and record a vlog, a beauty tutorial or a DIY tutorial.
