Vipfan M11 in-ear headphones

Looking for comfortable headphones that provide you with high quality sound? Opt for the Vipfan M11! Large drivers with composite diaphragms will provide you with an unforgettable musical experience, and the remote control integrated into the cable will make it easy to access some of the most important functions. What's more, the USB-C interface makes the headphones compatible with most popular devices.

Stunning sound

The headphones are equipped with large 12-millimeter drivers with composite diaphragms. This allows them to provide deep, emphasized bass and ear-pleasing treble. The richness of detail, perfect harmony and clear, natural sound all let you discover your favorite songs in a new, better quality.

Refined design

Enjoy unparalleled comfort as you listen to your favorite playlists. The headphones are exceptionally lightweight and comfortable, lying well in your ears and not falling out of them. What's more, the M11's cable won't get tangled thanks to its sliding handle. The product is also distinguished by a stylish, minimalist design.

Easy to use

Make using the headphones easy. The M11 are equipped with a remote control integrated into the cable, which provides convenient access to several useful functions. With its help, for example, you can pause or resume playback, as well as answer or reject a phone call.
