Gaming headphones HAVIT H2039d (red-black)

Ref: 6939119013578

### HAVIT H2039d Gaming Headset (Red-Black)

The HAVIT H2039d gaming headset is the perfect choice for gamers looking for reliable equipment with high-quality sound and comfortable usage. They feature an ergonomic design, powerful bass, custom 50mm drivers, and high compatibility with various devices. Additionally, they come with a practical volume and microphone sound adjustment knob, making them even more functional. They are also distinguished by an adjustable headband and soft ear cushions, ensuring comfort even during extended use.

#### Ergonomic Design

The HAVIT H2039d headphones are designed with user comfort in mind. Their headband perfectly conforms to the shape of the head, preventing pressure and discomfort even during long gaming sessions. The soft ear cushions not only isolate from external sounds but also provide wearing comfort, which is crucial for gamers.

#### Custom 50mm Drivers

The exceptional sound quality of the HAVIT H2039d headphones is ensured by custom 50mm drivers. Thanks to them, you get clear high tones and deep, powerful bass, significantly enhancing the quality of audiovisual experiences in games, music, or movies.

#### Powerful Bass

The strong and deep bass in the H2039d headphones is a real treat for fans of intense audio experiences. They provide full, rich sound that significantly increases immersion during gameplay, giving the user the feeling of being in the heart of the action.

#### Functionality and Compatibility

These headphones stand out for their high functionality, offering easy volume and microphone sound adjustment through a practical knob. Furthermore, they are compatible with many devices, including PC, PS4, PS5, Xbox, and other platforms with a 3.5mm jack, making them incredibly versatile.

#### Omnidirectional High-Sensitivity Microphone

The omnidirectional microphone with dimensions of  $\varnothing 4.0 \times 1.5 \text{mm}$  and sensitivity of  $-40 \pm 3 \text{dB}$  ensures clear and crisp communication, which is essential during online gaming. Its high sensitivity guarantees that every word is transmitted with the highest accuracy, enabling effective communication with other players.
