Family sonic toothbrush set with tip set FairyWill FW-507

FairyWill FW-507 Family sonic toothbrush set

FW-507 Family is a sonic toothbrush set for the whole family. You'll find 2 FairyWill FW-507 toothbrushes - black and pink - that offer 5 modes and generate vibrations at up to 40,000 per minute, and a special FW-2001 toothbrush for kids that offers 3 cleaning modes and is perfectly adapted to the needs of the youngest users.

Fine cleaning

What makes toothbrushes so great at eliminating bacteria, food debris and other contaminants? Thanks to sonic technology, the FW-507s generate vibrations at up to 40,000 per minute and the FW-2001s up to 38,000 per minute. This means that both young and adult users can enjoy a thorough, yet safe teeth cleaning experience.

10 tips included

The set includes up to 10 interchangeable tips - 4 for the black FW-507, 4 for the pink and 2 for the children's toothbrush. The tips designed for the youngest users are characterised by soft bristles, which are safe for teeth and gums. They also have a special pad for cleaning the tongue. The FW-507 toothbrush tips, on the other hand, feature colored bristles that start to fade once they need to be replaced - so you don't have to remember!

Intelligent timer

All included toothbrushes offer a smart timer to help you and your family brush your teeth thoroughly. Every 30 seconds, the device will give you a brief reminder to change the area you're brushing, and after 2 minutes it will automatically stop. This way you can make sure that both you and your child brush your teeth long enough.

5 modes of FW-507

The FW-507 toothbrushes allow you to choose from 5 modes of operation, making it perfect for a variety of user needs. Clean is perfect for everyday use, while White will get rid of stubborn plaque and stains. Massage mode massages your gums and Polish mode polishes your teeth. A gentle Sensitive mode is also available.

3 FW-2001 cleaning modes

Your child can also customize the operation of the toothbrush. The FW-2001 offers 3 cleaning modes. Soft is suitable for the youngest users aged 3 to 6 years. Clean is suitable for 7 to 12-year-olds. Twelve-year-olds and older users can enjoy the Massage mode.

Long runtime

The toothbrushes are equipped with long-lasting rechargeable batteries that provide a long run time. The FW-507 can last you up to 30 days on a single charge and they support 110-240V, which means you can easily plug them in overseas too. This makes them perfect for traveling! And with the FW-2001 fully charged, your child can use it for about 21 days. So you don't have to charge the devices too often!

Adapted to users' needs

The included devices are comfortable to use and are IPX7 waterproof - so you can use them in the bath or shower without worry, as well as wash them under running water. The ergonomic handle of the FW-2001 toothbrush fits small hands perfectly, and its cheerful colors will surely appeal to the youngest users. Moreover, the product is made of BPA-free material that is safe for health.
