Havit SK763 USB 2.0 Speakers

Havit SK763 speakers are designed with gamers in mind. They offer high-quality stereo sound thanks to 52-millimeter drivers and you will successfully connect them to a range of different devices. Control is made easy with a dedicated switch, and dynamic RGB backlighting adds a unique atmosphere to gameplay.

High-quality sound

The speakers use high-quality drivers with a diameter of 52 mm and a frequency response of 120 Hz - 18 kHz, which translates into bass-rich sound. In addition, a switch integrated into the cable allows you to adjust the volume.

Compatible

The Havit SK763 speakers are equipped with a 3.5mm audio input, so you can connect them to a wide variety of devices. They work with computers, laptops, smartphones, tablets, MP3/MP4 players, etc.
