Smart window and door opening sensor Avatto ZDS16

Avatto ZDS16 smart window and door opening sensor

Avatto ZDS16 is a smart window and door opening sensor that will provide you with an extra layer of security in your home. Thanks to the Zigbee protocol, you can easily integrate it into your smart home, and its compact design means you can mount it virtually anywhere - on doors, windows or drawers. Remote control via the Smart Life or Tuya Smart app, compatibility with voice assistants, as well as the ability to create operating scenarios and connect it to other devices in your home are just some of its advantages. Discover how Avatto ZDS16 can make your home even smarter!

Security at the highest level

Sleep soundly, knowing that your home is protected! The Avatto ZDS16 sensor has a removal warning function, which means that any unauthorized attempt to remove the device will be detected immediately. This guarantees full protection for your home! What's more, the sensor is capable of detecting attempted break-ins and sends instant notifications to your smartphone, allowing you to take immediate action, no matter where you are.

Control remotely from anywhere

The Smart Life/Tuya app allows you to remotely monitor and control the sensor from anywhere in the world using your smartphone or tablet. It's a convenient solution that allows you to control your home even when you're away. The sensor also works with Amazon Alexa

and Google Home voice assistants, making it even easier to use. You can also share access to the sensor with other family members to create a smart home together.

Smart scenarios

The Avatto ZDS16 sensor gives you the ability to create smart operating scenarios in conjunction with other devices in your home. For example, you can set the lights to turn on automatically when you open the door. This is just one of many examples of how you can customize the devices in your home to fit your daily schedule!

Easy installation, child protection

Avatto ZDS16 has a built-in child lock, so you can be sure that the youngest household members won't accidentally turn it off or change the settings. What's more, its installation is extremely simple - just stick the device in the desired location to enjoy the added level of security and convenience that a smart home offers.

Included

sensor

magnet

mounting stickers x2
