Intelligent Fountain/Water Dispenser for Dogs and Cats - Petwant W4-L

You no longer have to fill your pet's bowl every day - now you can ensure their proper hydration with Petwant! The intelligent water dispenser for dogs and cats, W4-L, stands out with a capacity of 2.5 liters, and the transparent window makes it easy to monitor the water level. The device offers 3 dispensing modes and, thanks to the filtration system, guarantees fresh and clean water. The 5000mAh battery provides over 40 days of operation. You can also connect the fountain to a power source - it is prepared for power outages.

### 3 Dispensing Modes

The Petwant W4-L intelligent fountain has a 2.5-liter capacity and supports 3 operating modes. In the Motion mode, the device dispenses water whenever it detects movement. The Timing mode ensures water flow every 15 minutes. Standard mode, on the other hand, guarantees uninterrupted device operation, but it requires the dispenser to be connected to a power source. Optimize water and energy consumption by choosing the most suitable mode!

### Reliable Filtration System

The Petwant W4-L water dispenser uses a 3-layer filtration system consisting of a non-woven material that traps impurities and hair. Ion exchange process helps eliminate unwanted chemicals and heavy metals. Activated carbon minimizes unpleasant odors and ensures fresh, high-quality water at all times. As a result, you can be sure that your pet is hydrating in hygienic conditions with the highest

quality fresh water.

#### Refined Design

A practical window makes it easy to monitor the remaining water. The noise level generated by the Petwant W4-L water dispenser is only 35 dB, ensuring that the device won't disturb your pet or household members. It is made of food-grade ABS material, so you can be sure that using the fountain is completely safe for your four-legged friend. Moreover, the detachable parts make cleaning a breeze.

#### Fail-Safe Solutions

Wondering what will happen if the W4-L dispenser operates in wired mode and there is a power outage? Petwant has a solution for every situation! The device stores 200 ml of water to ensure that your pet can stay hydrated regardless of external factors. Additionally, the intelligent system detects low battery levels, low water levels in the tank, and complete lack of water, making device management easier.

#### Safety First

The PetWant W4-L fountain is designed to ensure that electrical components do not come into contact with water, eliminating the risk of malfunction due to flooding. Additionally, the lithium battery and water pump components are separated inside the device, making maintenance easier.

#### Long Operating Time

Is your pet prone to chewing on cables? The PetWant W4-L intelligent fountain can operate wirelessly, so you no longer have to worry about your furry friend. The 5000mAh lithium battery provides up to 40 days of operation, depending on the selected mode.
