Havit H2007U gaming headphones

Havit H2007U is an excellent choice for any gamer who values not only sound quality, but also comfort during gameplay. The headphones are equipped with 40 mm drivers, which will transport you into the middle of the action, allowing you to hear every detail. The highly sensitive microphone enables clear team communication during gameplay, while their ergonomic design and comfortable ear cups ensure comfort even during long gaming sessions.

Discover every detail of sound

Immerse yourself in amazing sound with the Havit H2007U! With 40-millimeter drivers, the headphones deliver an exceptional sound experience, providing realistic sound effects during gaming and precise highs and lows for music lovers. Whether you're in the midst of heated gaming skirmishes or simply relaxing to your favorite tunes, these headphones ensure that you hear every last detail.

Let your voice lead you to victory

Now you can communicate freely with your friends during gameplay! The H2007U headphones feature a built-in, high-sensitivity microphone that ensures your voice is heard and clear even during the most intense moments of gameplay. Easily coordinate your actions, exchange key information and achieve success in any gameplay to the full potential of your team.
