Wireless Mouse Havit MS60WB

Ref: 6950676270204

Wireless Mouse Havit MS60WB

Havit MS60WB wireless mouse
Bring a new level of convenience and precision to your daily work! The Havit MS60WB mouse allows you to adjust the resolution from 800 to 1600 DPI, so you can customize its sensitivity to your individual needs. You can connect it both wirelessly via Bluetooth 5.1 and 2.4GHz, and wired via USB-C, and with compatibility with various operating systems, including Windows, Linux and Mac, it's a great choice for many users.

Precision under control
Gain even more precision over your cursor movement! With a 3-level resolution adjustment (800/1200/1600), you can customize the mouse's precision to suit your needs. If you need maximum accuracy, choose 1600 DPI. When you want smooth web browsing or working in office programs, 800 DPI will be the perfect choice.

3 ways to connect
With the Havit MS60WB, you have full freedom to choose how you want to use the mouse. You can use it wirelessly, connecting via both Bluetooth 5.1 and 2.4GHz, which guarantees a stable and fast connection. And if you need reassurance that you won't run out of power at the most important moments, simply connect it wired via USB-C.
