

## TELESIN Three-Arm Suction Mount - TE-TSB-001

TELESIN Three-Arm Suction Mount - TE-TSB-001

Ref: 6972860177335

Telesin three-arm suction cup mount for phones and sports cameras

Create recordings from a new perspective. The Telesin mount uses 3 arms with suction cups to ensure stability. The TE-TSB-001 will successfully attach to flat surfaces, and wide compatibility allows you to attach various devices to it. Thanks to the swivel head and height adjustment, you will easily set the optimal recording angle. In addition, mounting the mount is simple and will only take a moment thanks to the  $\frac{1}{4}$ " thread.

Several mounting options

Capture unique, dynamic moments from an interesting perspective with the Telesin TE-TSB-001. The mount uses 3 suction cups that provide unparalleled stability. You will successfully attach it to a smooth, flat surface - such as a car hood/glass/window or glass door.

Refined design

The mount provides a lifting capacity of up to 1.5 kg, and the rubber finish of the suction cups protects surfaces from scratches. What's more, the use of aluminum alloy ensures the stability and durability of the product. In addition, you can detach each arm of the handle and use them independently.

Adjustable and wide compatibility

The head of the mount is 360° adjustable, so you can adjust the angle of recording to suit your needs. What's more, Telesin TE-TSB-001 is compatible with insta360, Go Pro, Osmo Action, Canon, Sony, etc. cameras and smartphones.
