Baseus Magnetic Mini 20000mAh 20W powerbank.

Charge your devices quickly and safely with the Baseus powerbank! The Baseus Magnetic Mini powerbank is equipped with a USB-C port, it also allows wireless charging. Its capacity is as high as 20,000 mAh. It also has built-in LEDs that allow you to check the battery capacity at any time. It supports such fast charging protocols as PD 20 W, for example.

Thoughtful design

The product is characterized by its light weight and compact size, so you can always carry it with you! In addition, it was designed to allow you to conveniently wirelessly charge your smartphone - it does not obscure the phone's camera, so you can successfully use it, and thanks to the built-in magnets with a high attraction force, it provides stability to the phone placed on it. In addition, the material is pleasant to the touch and prevents it from slipping from your hand.

Wired and wireless charging

The product allows both wired and wireless charging. The solutions used will provide you with the desired convenience. It supports high-speed wired charging of 20 watts. What does this mean in practice? Your iPhone will be charged to 50% in just 30 minutes! It also supports 15W wireless charging.

Wide compatibility

You can easily charge most popular devices with this practical powerbank. The product allows you to quickly charge iPhones 12-13 series, and is also compatible with Xiaomi and Huawei phones, among others. It also allows you to power tablets and wireless headphones. With a capacity of as much as 20,000 mAh, you won't have to charge it too often.

Large capacity

The device features a capacity of 20000mAh, which allows you to charge your devices multiple times. It allows you to charge your Apple 12 up to 4.3 times, while you will renew the energy of your Apple 13 4 times. The LED indicator will let you know the remaining energy of the powerbank.

Safe to use

The high-grade polymer-lithium battery guarantees safe charging. Baseus offers protection against overvoltage, overcurrent, overcharging and short circuit, among others. The powerbank is also equipped with NTC temperature sensors to prevent overheating. In addition, the product has compliance with international air transport standards, allowing you to take it with you almost anywhere.
