Baseus Magnetic Mini 10000mAh 30W MagSafe magnetic powerbank (blue).

Charge your devices without interference with the Baseus Magnetic Mini. The powerbank is equipped with a USB-C port and supports wireless charging. It stands out with a capacity of 10,000 mAh and has LED lights that allow you to monitor the battery's charge status at any time. It also supports the PD 30 W fast charging protocol. It also offers a retractable cable that makes it easy to charge the powerbank and other devices.

**Wired and wireless charging**

This product supports both wired and wireless charging for greater convenience. It supports 30W fast wired charging, which means your iPhone can be charged up to 55% in just 30 minutes! In addition, it supports wireless charging with 15W max.

**Compatible and durable**

This practical powerbank will easily charge most popular devices, including iPhone 12-14 series, Samsung and Google brand devices, as well as wireless earphones, smartwatches, electric toothbrushes and more. Plus, thanks to its 10,000 mAh capacity, you don't have to charge it often. On a single charge it will renew the energy of the iPhone 14 about 1.7 times, and the Huawei Mate 40 Pro about 1.2 times.

#### Safe to use

Thanks to its high-quality polymer-lithium battery, using the powerbank is safe. It offers protection against overvoltage, overcurrent, overcharging/discharging, short circuit overheating, etc. What's more, it meets international air transport standards, allowing you to take it on the go.

#### Thoughtful design

The product is characterized by its light weight and compact size, allowing you to conveniently carry it with you at all times. In addition, it has been designed to allow you to conveniently wirelessly charge your smartphone in the case and without blocking the phone's camera. Thanks to the built-in magnets with a high attraction force, it ensures the stability of the device placed on it. The surface is also pleasant to the touch and prevents accidental slipping from your hand.
