

## Handheld vacuum cleaner Deerma VC31

Handheld vacuum cleaner Deerma VC31

Ref: 6955578040221

### Deerma VC31 Handheld Vacuum Cleaner

The Deerma VC31 is an innovative handheld vacuum cleaner that combines convenience, performance, and versatility. Designed for effective cleaning, it offers a suction power of 15kPa. Equipped with a removable rotating brush, a reusable filter, and soft brushes, the Deerma VC31 ensures effortless cleaning in every corner of your home. Additionally, its convenient charging ports, intelligent notifications, and ease of maneuverability make it the perfect choice for any household.

### Powerful Suction

The 15kPa suction power of the Deerma VC31 guarantees unmatched performance, allowing you to remove even the toughest dirt and debris. High suction power translates to greater efficiency, making vacuuming faster and more thorough.

### Reusable Filter

The filter in the Deerma VC31 vacuum cleaner is designed for multiple uses and easy cleaning. This allows users to enjoy long-lasting performance without the need for frequent filter replacements, which is both economical and environmentally friendly.

### Charging and User-Friendly

The DC charging port of the Deerma VC31 allows convenient device charging. The DC charging port is also known for its reliability and

durability. Unlike some standard ports, the DC port is less prone to damage from frequent use, resulting in a longer lifespan for the device.

#### Intelligent Notifications

The Deerma VC31 vacuum cleaner is equipped with a notification system that monitors the status of the brush and dust container in real time and immediately informs the user when action is needed, such as unlocking the brush or replacing the filter element. This makes it easier and more effective to maintain the optimal performance of the device, extending its lifespan.

#### Easy Maneuverability

The design of the Deerma VC31 vacuum cleaner makes it easy to handle, ensuring smooth changes in vacuuming direction with minimal effort. This makes vacuuming less tiring, and the vacuum cleaner can reach difficult-to-access areas, such as the space along baseboards.

#### Additional Benefits

The vacuum cleaner also features a transparent dirt container, allowing for easy monitoring of its contents. An ergonomic wall-mounted handle provides convenient storage for the device. Additionally, the package includes extra brushes, enhancing the vacuum cleaner's versatility in cleaning various surfaces.
