Baseus Magnetic Mini 10000mAh 20W MagSafe Magnetic Power Bank (White)

The Baseus Magnetic Mini Magnetic Power Bank is a compact and highly functional device that effectively meets the needs of fast and convenient charging. It supports fast charging with a power output of up to 20W, and the built-in magnets ensure stable and secure attachment to your device, allowing for hands-free charging. Additionally, the ability to charge two devices simultaneously, both wirelessly and wired, as well as compatibility with phones equipped with a magnetic charging case, make this device incredibly versatile. All of this is enclosed in a stylish casing, with practical LED indicators and multiple safeguards, making the Baseus Magnetic Mini an excellent choice for anyone who values reliability and user comfort.

**Wireless Charging**

The Baseus Magnetic Mini Power Bank offers wireless charging capabilities with a power output of up to 15W, making it a convenient option for those who value freedom. Compatibility with MagSafe technology allows for instant attachment of the power bank to the back of your device and start charging without the need for additional configurations.

**Multi-functional Cable**

The integrated USB-C cable on the power bank serves a dual purpose - it allows for charging both your phone and the power bank itself. Furthermore, the cable can be plugged back into the port on the power bank, creating a practical loop that serves as a carrying strap.

This solution adds extra functionality and makes using the power bank even more convenient.

#### Compatibility with Charging Cases

The Baseus Magnetic Mini Power Bank is compatible with phones equipped with magnetic charging cases, further expanding its capabilities. The built-in 13N magnets ensure that devices stay securely attached, regardless of conditions, ensuring stable and safe charging. This is a feature appreciated by those looking for reliability and versatility in one compact device.

#### Multiple Safeguards

User safety is a crucial aspect of any electronic device, and the Baseus Magnetic Mini Power Bank is no exception. It offers a range of safeguards, including protection against overcharging, discharging, voltage, as well as temperature, overcurrent, short-circuit, and electrostatic protection. This comprehensive protection ensures the safe use of the power bank, protecting both the device and the user.

#### Compact Dimensions and LED Indicators

Its small size makes it easy to take on trips or to work, and it doesn't block the camera lenses on your phone. LED indicators provide information about the battery's status, allowing for a quick assessment of when a recharge may be needed. All of this makes the Baseus Magnetic Mini a practical and reliable tool.
