Powerbank Baseus Magnetic Mini 10000mAh 20W MagSafe (yellow)

Baseus Magnetic Mini 10000mAh 20W MagSafe Magnetic Power Bank (Yellow)

The Baseus Magnetic Mini magnetic power bank is a compact and highly functional device that effectively meets the needs of fast and convenient charging. It supports fast charging with up to 20W of power, and the built-in magnets ensure stable and secure attachment to your device, allowing for hands-free charging. Additionally, the ability to charge two devices simultaneously, both wirelessly and wired, and compatibility with phones with magnetic charging cases make this device extremely versatile. All of this is housed in a stylish casing with practical LED indicators and multiple safety features, making the Baseus Magnetic Mini an excellent choice for anyone who values reliability and convenience.

Wireless Charging

The Baseus Magnetic Mini Power Bank offers wireless charging with up to 15W of power, making it a convenient option for those who value freedom. Compatibility with MagSafe technology allows for quick attachment of the power bank to the back of your device, starting charging without the need for additional configuration.

Multi-Functional Cable

The integrated USB-C cable in the power bank serves a dual purpose - it enables charging both your phone and the power bank itself. Furthermore, you can plug the cable back into the power bank's port, creating a practical loop that serves as a carrying strap. This

solution provides additional functionality and makes using the power bank even more convenient.

Compatibility with Charging Cases

The Baseus Magnetic Mini Power Bank is compatible with phones equipped with magnetic charging cases, further expanding its capabilities. Built-in magnets with a strength of 13N ensure that devices stay securely attached, regardless of conditions, ensuring stable and safe charging. This is a solution appreciated by those looking for reliability and versatility in one compact device.

Multiple Safety Features

Safety during use is a key aspect of any electronic device, and the Baseus Magnetic Mini Power Bank is no exception. It offers a range of protections, including protection against overcharging, discharging, voltage, as well as temperature, overcurrent, short-circuit, and electrostatic protections. This comprehensive protection ensures safe use of the power bank, protecting both the device and the user.

Compact Dimensions and LED Indicators

Its compact size makes it easy to take on the go or to work, and it does not block your phone's camera lenses. LED indicators inform you about the battery's status, allowing for a quick assessment of when a recharge may be needed. All of this makes the Baseus Magnetic Mini a practical and reliable tool.

Specifications

BrandBaseus

ModelPPCXM10I
