Powerbank Baseus MagPro Magnetic 5000mAh 20W, MagSafe (yellow)

Baseus MagPro Magnetic 5000mAh 20W Magnetic Power Bank, MagSafe (Yellow)

Baseus MagPro Magnetic is a modern power bank with a capacity of 5000mAh, combining technology and practical design. Designed for users who value convenience and functionality, this device offers simultaneous wired and wireless charging, as well as the option to use it as a phone stand. Equipped with 15N magnets, it provides stable and strong attachment of devices. All of this in a compact and lightweight housing, perfect for carrying in your purse or backpack.

Wired and Wireless Charging

Baseus MagPro Magnetic offers users full flexibility with the ability to charge both wired and wirelessly. Wired charging operates at an impressive maximum power of 20W, allowing for quick replenishment of energy to devices. Meanwhile, wireless charging offers a power of up to 15W, ensuring efficient operation. These two options make the power bank a versatile tool for charging various devices.

Stand Function

An innovative feature of Baseus MagPro Magnetic is the ability to transform it into a stand with a 60-degree tilt angle. By attaching it to your phone and tilting the rear panel, users can use the device in both portrait and landscape positions.

Safe Usage

Safe use of mobile devices is crucial, and Baseus MagPro Magnetic comes equipped with numerous safeguards to protect both the power bank and the devices being charged. Protection against overcharging, excessive voltage, and electrostatic protection are just some of the features that provide peace of mind and safety during use.

Compact Design and Portability

Small dimensions and lightweight (158.9g) make Baseus MagPro Magnetic exceptionally practical and easy to carry on your travels. It easily fits in your purse or backpack, always at hand when you need it most. The black color and elegant design make it not only functional but also stylish.
