

### Smart Visual Ear-Clean Rod Bebird Note 5 (blue)

Smart Visual Ear-Clean Rod Bebird Note 5 (white)

Ref: 6972403826416

Bebird Note 5 ear cleaning otoscope with camera (blue).

Bebird will transform your approach to ear hygiene. The Bebird Note 5 otoscope combines a high-resolution 10 MP camera with a 3.2 mm endoscopic head to provide a crystal clear image inside the ear. The gyroscope with adjustable stabilization guarantees stable and accurate operations without tremors. The integrated Wi-Fi system allows easy access to images via an app, enhancing convenience. The rechargeable battery provides one hour of uninterrupted operation, and advanced features such as intelligent temperature control and LED backlighting enhance safety and comfort.

High image quality for precise diagnosis

The Bebird Note 5 otoscope guarantees exceptional precision - the 10 MP camera, equipped with a CMOS sensor, transfers images of the inside of the ear to the smartphone screen with amazing detail. Transmission speed of 20 fps makes every movement smooth. The nano lens is resistant to water, dust and scratches, resulting in sharp images even in harsh conditions.

Convenient image access

The integrated Wi-Fi microprocessor enables a stable and fast wireless connection, so you can analyze the camera's view in real time on the dedicated Bebird app, available in the App Store and Google Play stores. A high-end gyroscope is responsible for stabilizing the image, allowing you to maneuver precisely without worrying about hand tremors. This makes ear cleaning safer and more convenient.

#### Proven effectiveness

Bebird sets a new standard in ear hygiene. With its advanced visualization system, mechanical design and 360° adjustable innovative tweezers, the device provides convenient access to all parts of the ear and exceptional effectiveness.

#### Long working time

The 230 mAh rechargeable battery guarantees up to an hour of operation on a single charge. It only takes an hour to charge the otoscope's battery. As a result, the Bebird Note 5 otoscope is almost always ready to work, and you can enjoy comprehensive ear hygiene with innovative technologies.

#### Additional perks

Thanks to intelligent temperature control, the Bebird Note 5 otoscope does not overheat, and the eye-safe LED backlight makes cleaning and inspecting the ears easier. The device is also distinguished by its lightweight and compact design, making it possible to perform daily health checks and remove ear, nose and throat wax both at home and on the go.

#### Includes:

Otoscope with camera  
Ear tip container  
Protective ear tip insert  
Silicone ear tip protector x3  
Ring-shaped silicone ear tip cap x3  
Charging cable  
User manual

Manufacturer: Bebird  
Model: Note 5  
Pixels: 10 MP  
Lens diameter: 3.2 mm  
Optimum focal length: 12 ~ 15 mm  
Gyroscope: Yes, with adjustable stabilization  
Image sensor: CMOS  
Image transmission speed: 20 fps  
Frequency of operation: 2.4GHz  
Network standard: IEEE 802.11b/g/n  
Battery capacity: 230mAh  
Operating time: approximately 60 minutes  
Charging time: około 60 minut  
Operating temperature: 10°C to 45°C  
Input parameters: DC5V 0.5A  
Weight of the rod: 29 g  
Color: blue

Price:

Before: € 65.0055

**Now: € 64.00**
